| User / Installer Responsibilities | | | | | | |
| <p>It is important to understand that the existence of this document alone does not automatically constitute authority to install the part/component/assembly.</p> <p>Where the user / installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country, it is essential that the user / installer ensures that his/her airworthiness authority accepts parts/components/assemblies from the airworthiness authority of the country.</p> <p>Statements in Block-11 and 16 do not constitute installation certification. In all cases, aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user / installer before the aircraft may be flown.</p> <p>*Installer must cross-check eligibility with applicable technical data.</p> | | | | | | |
