R-30-2015	Designated Management Personnel of Domestic Repair Stations															√

Notes:

¹= GACAR Part 119 addresses wet leasing although the GACA policy statements concerning 83bis agreements listed in R-3-2009 will not be included in the rule language. These additional policy statements will be included in the GACA Leasing Manual (likely a GACA Advisory Circular).

²= GACAR Part 119 addresses wet leasing although many of the detailed wet leasing requirements listed in R-20-2010 will not be included in the rule language. These additional “requirements” will be included in the GACA Leasing Manual (likely a GACA Advisory Circular).

³= Not all requirements are included in GACAR Part 129. GACAR Part 129 only requires the aircraft meet ICAO Annex 6 and 8 requirements.
