Operational Performance Standards Monthly Report

July 2024

- GACA monitors 11 operational performance standards for the most critical passenger journey touchpoints. These standards aim to ensure a unique passenger experience for all travelers within the kingdom's airports, while aligning with international best practices for improving the services provided at the airports.
- Airports are ranked based on their compliance in achieving targets set for each standard in a unified way of measurement across all airports. Such as check-in, security control, passport control, customs control, asset availability, PRM assistance services and delays caused by the airport operator.
