Air Navigation Charges

All flights entering the FIR of Saudi Arabia and utilizing the approach and/or en-route services will be subjected to new charges. These charges will be implemented starting at 1 July 2016.

### **APPROACH CONTROL SERVICES**

Air Navigation Services Charges for aircraft approaching within 20KM of airports of Saudi Arabia shall be calculated using the following formula:

$$\text{Charges} = S \times W$$

Where:

**S:** Service Unit Rate for approach, set as 200 SAR

**W:** Weight Factor. Determined on the basis of the maximum takeoff weight using the following formula:

$$w = \frac{\sqrt{MTOW}}{50}$$

**MTOW:** Maximum takeoff weight in tons.

**Note:** Any weight above 500KG will be rounded up. Any weight below 500KG won't be calculated.

### **ROUTE AIR NAVIGATION SERVICES**

Air Navigation Services Charges for aircraft overflying landing or taking off within the FIR of Saudi Arabia shall be calculated using the following formula:

$$\text{Charges} = S \times D \times W$$

Where:

**S:** Service Unit Rate of en-route set as 118 SAR

**D:** Distance Factor that is the distance flown between the point of entry and the point of exit in kilometers divided by 100, and

**W:** weight Factor. Determined on the basis of the maximum takeoff weight using the following formula:

$$w = \frac{\sqrt{MTOW}}{50}$$

**MTOW:** Maximum takeoff weight in tons.

**Note:** Any weight above 500KG will be rounded up. Any weight below 500KG won't be calculated.
