## Regulatory Interim Policy

To : All GACA Regulated Entities Under the GACA Aviation Safety Regulations (GACARs)

Subject : Extension of the New GACARs Implementation Date (as per GACAR Part-199)

Based on GACA's observation of the New GACARs implementation by the various GACA regulated entities within the Kingdom, it was concluded that for various reasons, compliance with the established dates by GACAR Part-199 for completing the full transition into the New GACARs is not possible for some GACA regulated entities and thus, mandating such compliance would render undesirable effects on the safety performance of those entities.

It is, therefore decided to set the new date of December 31st of 2018 to complete the full transition into the New GACARs for all the civil aviation entities that are regulated by the GACA Aviation Safety Regulations (GACARs).

For those regulated entities who have not submitted their transitional plans as prescribed in GACAR Part-199, **their transitional plans must be submitted to GACA no later than May 1st of 2018** along with appropriate proofs of payment of the required fees.

  
Abdulkhakim bin Mohammed Altamimi

President of General Authority of Civil Aviation  
Kingdom of Saudi Arabia
